PROFESSIONAL SUMMARY

Full Stack / Frontend Software Engineer with expertise in Angular, React.js, Node.js, and MongoDB, experienced in building responsive, scalable, and high-performance Single Page Applications (SPA) and RESTful web services. Skilled in API integration, unit and end-to-end testing, Agile/Scrum delivery, and performance optimization. Proven ability to quickly learn and apply new technologies such as Next.js, GraphQL, and AWS to deliver impactful solutions. Strong problem-solving, collaboration, and communication skills, with a track record of delivering production-ready features under tight deadlines. Open to Remote / On-site / Hybrid opportunities.

CORE TECHNICAL SKILLS

Frontend: Angular, React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, jQuery, Single Page Applications (SPA)

Backend: Node.js, Express.js, REST APIs, RESTful APIs, MongoDB, SQL (basic), Microservices (basic)

Testing: Jest, React Testing Library, Cypress, Unit Testing, Integration Testing

Tools & DevOps: Git, GitHub, Version Control, Agile/Scrum, CI/CD (GitHub Actions, Jenkins basics), Webpack, npm/yarn, Docker (basic)

Cloud & Emerging Tech: AWS (basic), Next.js, Redux Toolkit, Zustand, GraphQL

Soft Skills: Problem-Solving, Team Collaboration, Adaptability, Time Management, Effective Communication, Attention to Detail

PROFESSIONAL EXPERIENCE

Software Engineer | Cybage Software, Gandhinagar (Nov 2023 – Present)

- Completed structured training in HTML, CSS, JavaScript, jQuery, Node.js, MongoDB, Angular, and project-based learning.
- Minor Project: Built an interactive Periodic Table Web App with clickable elements displaying atomic details and descriptions.
- Major Project: Developed a social media platform using Angular, Node.js, and MongoDB with authentication, post creation, and real-time feeds.
- Implemented multiple responsive pages for a Hospitality & Travel project using Angular and integrated Backend-for-Frontend (BFF) APIs, reducing API response time by 15%.
- Wrote unit tests for Angular components using Jest, achieving 95%+ test coverage.
- Upskilled in React.js in one month to contribute to production code, including UI creation, bug fixes, and unit testing.
- Collaborated with cross-functional teams to ensure timely and high-quality deliverables.
- Created reusable UI components meeting accessibility (WCAG) and performance standards, improving team development speed by 15%.

PROJECT HIGHLIGHTS

- Social Media Platform – Angular, Node.js, MongoDB, JWT Authentication
- Responsive Hospitality Web Pages – Angular, Jest
- React UI Components – React.js, Jest, Zustand (state management)

EDUCATION

Bachelor of Technology in Computer Science and System Engineering | Kalinga Institute of Industrial Technology, Bhubaneswar | May 2023
